# SYEDA ZOBIA IRSHAD

M.Sc. Artificial Intelligence | Software Engineer | Python & RAG

Bielefeld, Germany (Erasmus) | +39 392 881 6090 | syedazobiairshad@gmail.com

linkedin.com/in/syeda-zobia-i-230556214 | github.com/Zobia02 | Open to relocation in Germany

## PROFESSIONAL PROFILE

Artificial Intelligence master's student with hands-on software engineering experience in Angular, .NET, React/Next.js and Python. Built a retrieval-augmented generation (RAG) support application using Azure technologies. Interested in applied AI, NLP, software development and reliable intelligent systems; currently on Erasmus exchange in Germany.

## EDUCATION

**M.Sc. Artificial Intelligence | University of Bologna, Italy (2025 - present)**

Erasmus exchange | Bielefeld University, Germany (2026 - 2027)

**B.E. Computer Systems Engineering | NED University of Engineering & Technology, Pakistan (2020 - 2024)**

CGPA: 3.896/4.00 | Approx. German grade: 1.2* | Awarded 100% undergraduate scholarship

## PROFESSIONAL EXPERIENCE

**Software Engineer | Techlogix (Feb 2025 - Oct 2025)**

- Contributed to application development and maintenance using .NET and Angular.
- Worked collaboratively with the engineering team on software features and implementation tasks.

**Software Engineer | Data Science Dojo (Aug 2024 - Feb 2025)**

- Supported SaaS frontend migration from React to Next.js to improve maintainability.
- Developed application workflows with Next.js, Angular and .NET, working across teams.
- Participated in UAT, bug bashes and regression testing to identify and resolve defects.

## SELECTED AI PROJECT

**ServiceSwift | Retrieval-Augmented Generation (RAG) Customer Support Assistant**

Final-year project | Industry partner: Empiric Technology, Canada

- Developed a document-grounded chatbot framework designed for integration into OEM websites for 24/7 support.
- Used Python, Azure services and MongoDB to answer queries using uploaded product and support documentation.

## TECHNICAL SKILLS

Programming: Python, C#, SQL, object-oriented programming, data structures

AI & Cloud: machine learning, retrieval-augmented generation (RAG), Microsoft Azure

Software: Angular, React, Next.js, .NET, frontend development, testing, debugging, UAT

Databases & Tools: MySQL, MongoDB, SQL Server Management Studio (SSMS), Figma

## CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900) | Microsoft Certified: Azure AI Fundamentals (AI-900) | QA Fundamentals - 10Pearls University

*Unofficial German-grade estimate using the Modified Bavarian Formula, assuming 2.00/4.00 is the minimum passing CGPA. Recognition authorities or employers may calculate a different equivalent.
